The Digital Marketing Strategy and Analytics workshop introduces key metrics to measure firm performance in online marketing and social media. There will also be a discussion on how to use such analytics to aid firm’s design of digital marketing strategies. A brief case study is included to provide attendants hands-on experience. Students will gain a better understanding on how to apply digital marketing strategies to a career in engineering.

**THURSDAY**
**DEC 5, 2019**
**6:00 PM – 7:30 PM**
Raytheon Amphitheater
(Egan 240)

Please RSVP by Dec. 1st
