

The Sco-op

News for Engineering Employer Partners

CONNECT WITH TOMORROW'S ENGINEERING LEADERS

Recruiting and Engagement Opportunities Guide

This special edition of The Sco-op is a guide that highlights multiple opportunities to engage with our exceptional engineering students throughout Spring 2026. From discipline-specific career mixers to university-wide talent fairs, we invite you to participate in person and experience firsthand the caliber, preparation, and enthusiasm of Northeastern engineering students.

Inside This Guide

Discipline-Specific Career Events
University-Wide Talent Connect Fairs
Employer Spotlight Opportunities
Year-Round Engagement Options
Technical Talks & Panels
Student Club Connections

WHY NORTHEASTERN UNIVERSITY?

Nationally Recognized Excellence
#1 Co-op/Internship Program - U.S. News & World Report
Featured in Forbes: "15 Top Colleges for Launching Your Career"

The Northeastern Co-op Advantage

For over a century, Northeastern University's cooperative education program has been the gold standard in experiential learning. College of Engineering students complete up to three six-month co-op experiences, gaining 12-18 months of professional work experience before graduation.

This isn't just an internship program—it's a transformative partnership between industry and academia that produces career-ready engineers who hit the ground running on day one.

Spring 2026 Recruiting Opportunities

CEE Career Mixer

Jan. 27, 2026 6–8 p.m.

Civil and Environmental Engineering

Curry Student Center Ballroom

Employer partners are invited to host a table to recruit for civil and environmental engineering students. This is an excellent opportunity to both market your company and roles, and collect resumes from interested candidates.

Target Group: Approximately 200 undergraduate and graduate civil and environmental engineering students who are actively seeking co-op or full-time roles.

Contact: nuceecareermixer@gmail.com

ECE Co-op Expo

Feb. 9, 2026 5:30–7:30 p.m.

Electrical and Computer Engineering

Curry Student Center Ballroom

We are excited to invite you to the Electrical and Computer Engineering (ECE) Co-op Expo for the Fall 2025 semester. This event will provide you the opportunity to recruit and network with undergraduate (EE, CE, CE/CS, and CS majors) and graduate students (ECE and Robotics majors) in the ECE Department seeking co-ops for the Spring 2026 term. The event is free of cost. Registration is required. This event will be a bit different from traditional career fairs. Each organization will have one high top table, so there will not be space for a full display.

Target Group: Approximately 150 undergraduate and graduate Electrical and Computer Engineering students searching for co-op.

Contact: Josie Flanagan - j.flanagan@northeastern.edu

Spring 2026 Recruiting Opportunities

IISE x NUSCM Employer Fair

Feb. 9, 2026 TBA

Industrial and Supply Chain Engineering

Curry Student Center Ballroom

The Northeastern Chapter of the Institute of Industrial and Systems Engineers (IISE) and Northeastern Supply Chain Management Club (NUSCM) are excited to announce an upcoming Employer Fair designed to connect employers like you with our talented community of industrial engineering and supply chain students. We invite your organization to join us at our upcoming event, where you can engage with potential future co-op students and/or future employees. Each organization will have a provided table space for students to approach, thus we ask that you have at least 1 employee at this event to talk with our members. We will prepare our students to have resumes ready to share.

For registration, click here.

ASME/AICHE/BMES Co-op Career Fair

Feb. 10, 2026 11am-2pm

Mechanical and Chemical Engineering and Bioengineering

Curry Student Center Ballroom and McLeod Suites

Employer partners are invited to host a table to recruit for mechanical, chemical, and bioengineering undergraduate students. This is an excellent opportunity to both market your company and roles, and collect resumes from interested candidates for co-op and full-time roles. Offered in both fall and spring semesters. Cost of registration is \$200 and food will be provided.

Target Group: Approximately 200 undergraduate mechanical, industrial, and chemical engineering and bioengineering students who are actively seeking roles.

Spring 2026 Recruiting Opportunities

Northeastern University Talent Connect Career Fairs

Talent Connect will be held in-person over two days with one virtual day. Choose which days and modality work best to meet your recruiting needs and availability.

Feb. 11, 2026, In-person: Science and Engineering (non-software), creative and social impact

Feb. 12, 2026, In-person: Business and Computer Science (software, AI, data engineering, data science)

Feb. 13, 2026, Virtual: All disciplines

Talent Connect is Northeastern University's biannual, university-wide, boutique, recruiting event. It enables employers to host an open student/job-candidate forum (Full Time / Part Time, Internship, and Co-op). The Talent Connect career fairs allow for learning more about each other – the employers' businesses and career opportunities, and the students' interests and qualifications. Following these sessions, employers have the ability to identify and interview appropriate students towards the goal of meeting their recruitment needs.

For more details, cost, and registration information, please [click here](#).

This spring the College of Engineering presents two unique ways to have your company featured for students:

Employer Spotlight Series

In this series, companies who hire over 5 students across both engineering and science are invited to host a special session that spotlights your company and roles.

Contact: [Speak with your co-op coordinator liaison to learn more](#)

ChipTalks: A Semiconductor Industry Series

In this series, students are exposed to the growing and ever-changing semiconductor industry. This series was kicked off in the fall with a tremendous employer panel and will continue into the spring with multiple engagement opportunities. We invited companies in this industry to participate!

Contact: [Speak with your co-op coordinator liaison to learn more](#)

Year-Round Recruiting Opportunities

Full-time Recruiting Support

Northeastern University Students

Northeastern's Office of Employer Engagement and Career Design provides employers with many opportunities to get in front of students to educate them about your organization, academic programs, industry trends, employment opportunities, and hiring practices. Participation in our employer programs (Industry/Company Spotlight, Coffee Chats, On-Campus Interviews, and Off-Campus Connections), aside from our career fairs, are free and can be scheduled through NUworks anytime during the year.

Contact for companies names A-M: Sumana Northover at s.northover@northeastern.edu

Contact for companies names N-Z: Justin Souders at j.souders@northeastern.edu

Class Panelist

College of Engineering Students

Introduction to Co-op and Professional Issues in Engineering are two classes the co-op faculty teach. In these classes, employer partners and alumni are featured as panelists to lend expertise on recruiting practices, hiring trends, and post-university career paths. Offered in both fall and spring semesters.

Target Group: 20-200 undergraduate or graduate students per session; dependent on department and class offering

Contact: Speak with your co-op coordinator liaison to connect to the right class and department

Technical Talks

Cross-disciplinary Students

Many student groups will provide industry partners with the opportunity to present on a technical topic within their industry of focus. Club contacts can be found on the following page. If you are interested in speaking with a student population not on this list, please contact coecoopjobs@northeastern.edu.

Target Group: College of Engineering students

Product Development Club Showcases

Student teams present their products with opportunity for further engagement in tabling session (hardware, software and wet lab-oriented products)

Generate: April 18, 2026 (tentative) - Details TBA

Forge: April 22, 2026 6:30-8:30pm; Alumni Center, 716 Columbus Ave, Boston

Contact: th.johnson@northeastern.edu
