Hello, and congratulations on your acceptance to the Bioengineering Master of Science program at Northeastern University! We are looking forward to having you join us.

As an incoming Summer 2021 student, there are some steps that you need to take before the semester starts. Please read this document thoroughly as it contains helpful information and can answer many of your questions before you begin your first semester.

**Step 1: Confirm your enrollment**
Please confirm your enrollment at Northeastern University, as you will not be able to register for classes until you complete this step. To confirm your enrollment, log into your electronic application account and pay the enrollment deposit. If you have any questions, please contact Graduate Admissions at coe-gradadmissions@northeastern.edu.

**Step 2: Course Registration**
While summer course offerings are limited compared to Fall and Spring, there are courses available for students to fulfill requirements across all concentrations. **BIOE 5420 Cellular Engineering (CRN 41360) is the only course offered Summer 1.** This course will count toward the Cell and Tissue Engineering concentration.

Please review the catalog for more information on your MSBIOE Academic Curriculum. Also please refer to Bioengineering’s Graduate Handbook.

This major requires a concentration in one of the following three concentrations: Biomedical Devices and Bioimaging, Cell and Tissue Engineering, or Biomechanics.

**Frequently Asked Questions**

**How do I register for courses?**
Your myNEU account is the portal for course registration. This account can be accessed at: [https://my.northeastern.edu/welcome](https://my.northeastern.edu/welcome)

Students can Register for Classes within the myNEU account portal. The schedule of classes lists all of the classes that are available for registration in a specific term. This is where you would find the five-digit CRN to use when registering for classes.

When searching for courses at the above schedule of classes link, please make sure to select “Summer 1 2021”. Click on “Advanced Search”. For the subject, “Bioengineering” for the level “Graduate”. Full-time students must register for at least two courses and part-time students must register for at least one course.
What if I am interested in the Gordon Engineering Leadership Program?
If you are considering the Gordon Engineering Leadership Program, please discuss your interest with your advisor at Orientation. You should still register for the above courses.

What if my course is full?
Don’t panic! Enrollments are always shifting as students get co-ops or change their course registrations. If a seat isn’t available in your preferred classes, you can join the waitlist. To join a waitlist, enter the class CRN (the 5 numbers in parentheses next to the course number above) directly into your registration sheet and hit submit. You will then have an option to select “waitlist” from a drop-down menu. The waitlist system will automatically inform you when a seat opens- just log into your account and accept it within the 24-hour time limit!

What if I am a part time student?
We recommend starting with one core course.

When is the Bioengineering Graduate Orientation? The Bioengineering Department offers Fall and Spring orientations. If you have specific questions, please reach out to the Bioengineering Academic Coordinator, Danielle McKaig (d.mckaig@northeastern.edu).

When can I meet with my Graduate Student Services Academic Advisor?
Graduate Student Services is an academic resource in the College of Engineering which, in conjunction with university faculty and staff, facilitates the academic processes of course registration, graduation clearance, academic probation, academic review of Office of Global Studies forms, and administration of funding. Many questions can be answered quickly and easily if you email Graduate Student Services via coe-gradadvising@northeastern.edu. You won’t have to wait in line and all inquiries will be answered within 1-2 days! Please be sure to include your NUID and a detailed account of your question.

Will I get a bill from registering?
Yes, your first e-bill is generated when you register for your courses. You will receive an e-bill from the University with instructions on how to pay the e-bill. If you have questions about payment, please contact the Student Financial Services office directly by emailing them at studentaccounts@northeastern.edu or check out their website at: http://www.northeastern.edu/financialaid/aid/graduate/

For more information about beginning your program at Northeastern University, please read your acceptance letter in full.

We look forward to welcoming you to the Graduate School of Engineering!

Sincerely,
Graduate School of Engineering
Northeastern University
