Spring 2021 Course Registration Information
Ph.D. Bioengineering

Congratulations on your acceptance to Northeastern University!

If you have not yet set up your myNEU account, login to your electronic application and use these instructions to do so.

Ph.D. BIOENGINEERING CURRICULUM

Core Requirements:

BIOE 6100- Medical Physiology, 4 credits
CRN: 34101. Mondays & Wednesdays, 6:00 PM- 8:00 PM

BIOE 6200- Mathematical Methods in Bioengineering, 4 credits
Offered Fall 2021

BIOE 7000- Principles of Bioengineering, 4 credits
CRN: 34508. Mondays & Thursdays, 11:45 AM- 1:25 PM

Seminar:

BIOE 7390 Seminar, 0 credits
CRN: 33510. Wednesdays, 11:45 AM- 1:25 PM

The curriculum for PhD students with advanced standing will be selected from the available core and elective courses under the guidance of the Associate Chair for Graduate Studies (Ph.D. Program Director) and the student's primary advisor. The advanced standing PhD degree requires a minimum of 16 semester hours (SH) of course work to be approved by the graduate director and a completed PhD dissertation. Advanced standing constitutes receipt of a relevant and accepted master's degree at a qualified institution.

Please review the catalog for more information on your Bioengineering Ph.D. Academic Curriculum. Also please refer to Bioengineering’s Graduate Handbook.

Your myNEU account is the portal for course registration. This account can be accessed at: https://my.northeastern.edu/welcome

Students can Register for Classes within the myNEU account portal. The schedule of classes lists all of the classes that are available for registration in a specific term. This is where you would find the five-digit CRN to use when registering for classes.

When searching for courses at the above schedule of classes link, please make sure to select “Spring 2021”. Click on “Advanced Search”. For the subject, “Bioengineering” for the level
“Graduate”. Full-time students must register for at least two courses and part-time students must register for at least one course.

**What if I am interested in the Gordon Engineering Leadership Program?** If you are considering the Gordon Engineering Leadership Program, please discuss your interest with your advisor at Orientation. You should still register for the above courses.

**What if my course is full?** Don’t panic! Enrollments are always shifting as students get co-ops or change their course registrations. If a seat isn’t available in your preferred classes, you can join the waitlist. To join a waitlist, enter the class CRN (the 5 numbers in parentheses next to the course number above) directly into your registration sheet and hit submit. You will then have an option to select “waitlist” from a drop-down menu. The waitlist system will automatically inform you when a seat opens- just log into your account and accept it within the 24-hour time limit!

**What if I am a part time student?** We recommend starting with one core course.

**When is the Bioengineering Graduate Orientation?** The Bioengineering Department Graduate Orientation will be offered virtually via Canvas. In Canvas students will have access to pre-recorded information. In addition, the Bioengineering Department will host a live Q&A session. The date and time will be announced shortly. Students will be able to access the live Q&A through Canvas.

**Meeting with your Graduate Student Services Academic Advisor:** Graduate Student Services is an academic resource in the College of Engineering which, in conjunction with university faculty and staff, facilitates the academic processes of course registration, graduation clearance, academic probation, academic review of Office of Global Studies forms, and administration of funding. Many questions can be answered quickly and easily if you email Graduate Student Services via gradstudentservices@coe.neu.edu. You won’t have to wait in line and all inquiries will be answered within 1-2 days! Please be sure to include your NUID and a detailed account of your question.

**Will I get a bill from registering?** Yes, your first e-bill is generated when you register for your courses. You will receive an e-bill from the University with instructions on how to pay the e-bill. If you have questions about payment, please contact the Student Financial Services office directly by emailing them at studentaccounts@northeastern.edu or check out their website at: http://www.northeastern.edu/financialaid/aid/graduate/

For more information about beginning your program at Northeastern University, please read your acceptance letter in full.

If you have any specific questions for the Bioengineering Department, please contact the department Academic Coordinator Danielle Freshnock at d.freshnock@northeastern.edu

We look forward to welcoming you to the Graduate School of Engineering!

Sincerely,
