ENCP 6100 Introduction to Co-op Registration Guidance

ENCP 6100: Introduction to Co-op is a pre-requisite to participate in the COE Departmental Co-op Program. Please visit the COE Graduate Co-op website for full eligibility requirements, co-op planning timeline, and more.

There is one section of ENCP 6100 for all PhD students, otherwise, ENCP 6100 is offered by department. Please use the chart below to find your relevant department and choose a section that fits your schedule. It is recommended you register as soon as possible to ensure you secure your seat in the class. You will not be permitted to enroll in a section outside of your department.

Special considerations:

- All PhDs students are encouraged to take the special PhD section of Introduction to Co-op, CRN 32890, regardless of department.
- Robotics students should register within their concentration department, i.e. Mechanical Engineering will register under MIE, Electrical Engineering will register under ECE, and Computer Science concentration should reach Khoury College of Computer Sciences.
- PlusOne students and double Huskies do not need to take Introduction to Co-op if they participated in the co-op program in their undergraduate years at Northeastern University.
- There are three circumstances in which a student may request a waiver from ENCP 6100. If you feel you meet one of these criteria you may submit an ENCP 6100 Waiver Request. It is highly recommended that you register for a class section until you receive a response to your waiver request.

1. A student completed two years of consecutive full-time work experience in the United States (may not include internships or remote work); OR
2. Completed an equivalent course at another US-based institution of higher learning and received a grade of C or higher; OR
3. In the process of completing a graduate program at Northeastern University, outside the College of Engineering, and received a grade of C or higher in their Introduction to Cooperative Education course.

If after reviewing this document you have questions about ENCP 6100 registration, please direct them to
your appropriate department’s co-op representative:

i.  Bioengineering
ii. Chemical Engineering
iii. Civil & Environmental Engineering
iv.  Electrical & Computer Engineering
v.  Mechanical & Industrial Engineering

If you have already enrolled in and passed ENCP 6100, or do not have any interest in participating in the
COE co-op program, please disregard this guidance.
