Congratulations on your acceptance to the Cyber-Physical Systems Engineering program with a concentration in the Internet of Things (IoT) at Northeastern University!

Please remember to confirm your enrollment at Northeastern. You will not be able to register for classes (information below) until you confirm enrollment. You can confirm your enrollment by logging into your application account and paying the enrollment deposit. If you have any questions regarding this process, please reach out through the Graduate Admissions Support Center.

As an IoT student on the San Jose campus, your program director, Professor Peter O’Reilly, advises you to take the following courses in your first semester:

INFO 5100, Application Engineering and Development
INFO 5100 is a substitute for CSYE 6200 which is one of the core courses in the program. Both INFO 5100 and CSYE 6200 have essentially the same content.

Note that CSYE 6510 will be offered as an online (V35) course in the spring semester.

It is strongly recommended that INFO 5100 be taken in the Spring term as this course is a mandatory pre-requisite for most of the other INFO courses that a student might wish to take as elective.

If you wish to take a course different from those listed above during your first semester, please contact Professor O’Reilly. It should also be emphasized that if a student takes a course not on the list of approved electives, this course will not count towards their degree unless prior approval has been received from the Program Director.

One of the requirements to become eligible to go on co-op is to take ENCP 6000, Career Management for Engineers. You may also take this course in your first semester if you wish.

These are the sections available for registration for students on the San Jose campus:

INFO 5100, Application Engineering and Development
Sections Available:
   Section 03: Saturday 1:00-4:30 PM CRN 34708, Professor Taral Oza

INFO 5101, Lab for INFO 5100
Sections Available:
   Section 03: Does Not Meet CRN 34885

CSYE 6510, Fundamentals of the Internet of Things
Sections Available:
   Section V35: ONLINE (recorded lectures) CRN 34885, Professor Rolando Herrero

ENCP 6000, Career Management for Engineers
Sections Available:
Section 08: Thursday 1:15 – 3:00 PM CRN 34727, Professor Drew Ochengco

Frequently Asked Questions

How do I register? If you need help navigating to your registration worksheet on your MyNEU account please watch the following webinars for instructions on how to register using your MyNEU account:
♦ New Registration Experience: https://registrar.northeastern.edu/article/new-registration-experience/

If you need individual help, please feel free to contact your Academic Advisor: Megan Sykes (m.sykes@northeastern.edu)

What if I already registered for classes? Please drop them immediately, unless they are the courses listed above, or you have written permission to take a different course. As a first term student you can only take the sections of the classes listed above. If you are registered in a section whose CRN number does not match with a number above, you are in the wrong section.

Meeting with Professor O’Reilly: You will have an opportunity to meet with your Academic Advisor, Megan Sykes, at Orientation in January. Professor O’Reilly, the Program Director, will be making a visit to Silicon Valley at some point in the spring term and you will have the opportunity to meet with him then.

Am I allowed to take three courses? Not during your first year of study. Subsequently, a student may petition to be allowed to take 3 courses in a semester.

Can I take courses from other departments and colleges? Yes, with prior approval from the program director. If you take a course outside of the core courses and the approved electives without prior approval, the course will not count towards your degree.

Am I required to bring a laptop? Yes. You must bring a high-quality laptop with a minimum of 8 GB memory AND a strong (4 hour) battery life - this is required for the Application Engineering course.

Will I get a bill from registering? Yes, your first e-bill is generated when you register for your courses. You will receive an e-bill from the University with instructions on how to pay the e-bill. If you have questions about payment, please contact the Student Financial Services office directly: http://www.northeastern.edu/financialaid/contact/.

For more information about beginning your program at Northeastern University, please read your acceptance letter in full.

We look forward to welcoming you to the Graduate School of Engineering!
Sincerely,

Graduate School of Engineering
Northeastern University
