

October 17, 2022

Congratulations on your acceptance to the Master of Science in Internet of Things program from the Institute for the Wireless Internet of Things, the Department of Electrical and Computer Engineering in the College of Engineering and the Khoury College of Computer Sciences at Northeastern University! We are looking forward to having you join us.

As an incoming Spring 2023 student, there are some steps that you need to take before the semester starts. Please read this document thoroughly as it contains helpful information and can answer many of your questions before you begin your first semester. If you have any questions, please contact Abby Hegarty (a.hegarty@northeastern.edu).

**Department of
Electrical and
Computer
Engineering**

360 Huntington Ave
409 Dana
Boston, MA 02115

ece.northeastern.edu

Step 1: Confirm your enrollment

Please confirm your enrollment at Northeastern University, as you will not be able to register for classes until you complete this step. To confirm your enrollment, log into your [electronic application account](#) and pay the enrollment deposit. If you have any questions, please contact Graduate Admissions at coe-gradadmissions@northeastern.edu.

Step 2: Know your faculty and administrative advisors

A team of faculty and staff is here to assist you in your academic career. You will meet these faculty and staff during orientation and can ask them any questions you might have.

- **Dr. Josep Jornet** (j.jornet@northeastern.edu)
Program Director
- **Dr. Stefano Basagni** (s.basagni@northeastern.edu)
Program Director
- **Abby Hegarty** (a.hegarty@northeastern.edu)
Assistant Director of Graduate Programs
- **Dr. Rachel Walsh-Peterson** (ra.walsh@northeastern.edu)
Electrical and Computer Engineering Co-op Advisor
- **Jackie Josselyn** (j.josselyn@northeastern.edu)
Electrical and Computer Engineering Co-op Advisor

Step 3: Course Registration

We strongly advise that incoming full-time students register for *only two courses*, and that incoming part-time students register for *only one course*. Note that international students entering the United States will need to register for at least 8 semester hours (in most cases, this requirement is met by registering for two courses).

For your first semester, we encourage you to register in:

- EECE 5576 Wireless Communication Systems

And your choice of:

- EECE 7205 Fundamentals of Computer Engineering
- CS 5800 Algorithms
- CS 7800 Advanced Algorithms

You can find the course descriptions and all the possible courses in the program here:
<https://catalog.northeastern.edu/graduate/engineering/electrical-computer/internet-things-ms/>

Frequently Asked Questions

How do I get a myNortheastern account?

After you confirm your enrollment, you will be able to log in to your [MyNortheastern portal](#). If you have not set up your MyNortheastern account, log in to your [electronic application account](#) and look for instructions to do so.

How do I register for classes?

Visit the Registrar Office [Registration Experience](#) page to learn how to search and register for courses using your myNortheastern account. Make sure to use the EECE or CS subject code when searching for courses. The online registration system will allow you to add or drop courses. The deadline to add a class can be found through the [University's Academic Calendar](#). If you have any questions about course registration, please email your College of Engineering Academic Advisor (coe-gradadvising@northeastern.edu).

What if I change my mind about a class?

You can use the online registration system to drop any course. The deadline can be found on the [University's Academic Calendar](#).

Can I sign up for the V35 online section of a course?

V35 (online) sections are reserved for part-time students or those who are on co-op. Full-time students cannot enroll in these sections.

I received a "Prerequisite and Test Score" error, but I have already taken the prerequisite course at another institution.

Northeastern's system does not automatically recognize courses from other institutions. You will need to submit a [Registration Override Request](#) attaching verification that you have met the pre-requisite requirements for the course. Please list Professor Masoud Salehi as "Program Contact."

I received a "College" error when registering for a CS or CY course.

ECE students need to request permission from Khoury College in order to take a CS or CY course using the [Khoury Elective Form](#). For further information concerning CS courses and for Khoury advising we refer students to khoury-gradadministration@northeastern.edu.

Do I need to attend both the Graduate School of Engineering General Orientation and Program Orientation? What is the difference between these two orientations?

Yes! Please make sure to attend both the Graduate School of Engineering General Orientation and Program Orientation sessions. These are two entirely different orientations and will provide you with very useful information that you need to have to perform well

throughout your program. These sessions will provide you with an opportunity to ask questions and meet with your academic and co-op advisors and some of your fellow future classmates!

Do I need to register for the Introduction to Cooperative Education course?

Please note that registration for the Co-op course is not mandatory. This course is one of the requirements to become eligible for the Co-op Experience. Students interested in participating in a Co-op should plan to register for this course either in their first or second semester. You will have the opportunity to meet with a Co-op Advisor during your Program Orientation.

The ENCP 6100 course will be available in both Fall and Spring semesters. Please note that the CRNs (Course Reference Numbers) for the Co-op sections for Electrical and Computer Engineering are 12438 (PhD only), 14759 (MS only), 14760 (MS only) and 18141 (MS only) for Fall 2022. These sections can be found in the course registration system – please be sure to select “Engineering Cooperative Ed” in the subject field.

What should I do if my course is full?

Enrollments are always shifting as students get co-ops or change their course registrations. If a seat isn’t available in your preferred class right away, you can add yourself to the [course waitlist](#) using the online registration system.

Will I get a bill by registering for courses?

Yes, your first e-bill is generated when you register for your courses. You will receive an e-bill from the University with instructions on how to pay the e-bill. If you have questions about payment, please refer to the [Billing & Payments](#) webpage of the Student Financial Services office.

What if I have questions regarding choosing courses or course registration?

You will have the opportunity to have your questions answered during or after your department orientation.

What if I have another question that is not answered here?

Please contact Abby Hegarty or the Program Directors Josep Jornet and Stefano Basagni or save any additional questions for the Graduate School of Engineering General Orientation and Program Orientation sessions.

We look forward to welcoming you to the Graduate School of Engineering!
