ENCP 6000 Career Management Registration Guidance

ENCP 6000: Career Management for Engineers is a pre-requisite to participate in the COE MGEN Co-op Program. The also is required to be eligible for co-op and to obtain access to Northeastern’s co-op job platform NUworks, to search for co-op positions. Please visit the COE Multidisciplinary Masters Co-op Students website for full eligibility requirements, co-op planning timeline, and more.

The ENCP 6000 is offered to all MGEN students, and each section is based on program and campus. Please use the chart below to find your relevant program and choose a section that fits your schedule. It is recommended you register as soon as possible to ensure you secure your seat in the class. You will not be permitted to enroll in a section outside of your program.

Special considerations:

- IS-Bridge Students - All IS-Bridge students are required to complete the conditional courses prior to registering for ENCP 6000
- MSIS Bridge students are eligible to search for co-op when:
  - They have completed 17SH of qualifying coursework. Students must complete the conditional courses to qualify to search:
    - **Frist Semester: 8SH**
      - INFO 5001 (4SH)
      - INFO 5002 (4SH)
    - **Second Semester: 17SH**
      - INFO 5100 (4SH) & INFO 5001 (lab)
      - Elective (4SH)
      - **ENCP 6000** (1SH)
- There are two circumstances in which a student may request a waiver from ENCP 6000. If you feel you meet one of these criteria, you may submit an COE-MGEN ENCP 6000 Waiver Request. It is highly recommended that you register for a class section until you receive a response to your waiver request.
  1. Completed an equivalent course at another US-based institution of higher learning and received a grade of C or higher, OR
  2. In the process of completing a graduate program at Northeastern University, outside the College of Engineering, and received a grade of C or higher in their Introduction to Cooperative Education course.
