Spring 2023 Course Registration Information for MS Robotics

Congratulations on your acceptance to the MS Robotics program at Northeastern University! At this time, we suggest that you register for Spring 2023 courses. Before registering, please read the registration instructions.

**Enrollment Confirmation:** Please make sure to confirm your enrollment at Northeastern University by logging into your application account and paying the enrollment deposit. *You will not be able to register for classes until you confirm your enrollment.*

**Setting up your myNortheastern account:** After you confirm enrollment, you will be able to utilize your myNortheastern portal. If you have not yet set up this account, then please log in to your electronic application and look for instructions to create this account.

**Spring 2023 courses can be found through the dynamic schedule.**

When searching for courses at the above link, please make sure to select “Spring 2023 Semester” for the term. Then, enter the appropriate subject code (see examples below), followed by selecting “Graduate” for course level.

Example subject codes:

ME - Mechanical Engineering
MEIE - Mechanical and Industrial Engineering
EECE - Electrical and Computer Engineering
CS - Computer Science
IE - Industrial Engineering
DS - Data Science

**Course Registration:** We advise full-time students to register for two courses and part-time students to register for at least one course. Please note that you can choose to register for any combination of your required core courses or electives during your first semester. For example, in your first term: you can either choose to take only required courses, only elective courses, or one required course and one elective course. You may take electives from any department.

You will have the opportunity to meet with your Faculty Advisor (CS Lawson Wong, ECE Hanumant Singh, ME Rifat Sipahi) during your program orientation. Please plan to meet with your Faculty Advisor after attending orientation to discuss your course selection for the first semester. Also note that you will be able to change your course registration (add or drop courses) using the online system during the first two weeks of the semester.

We highly recommend exploring the MS Thesis or MS Project track for your degree program as well. However, at this time, we suggest that you *do not* register for MS Thesis or MS Project because you must discuss and seek the approval of your Faculty Advisor before you register for
these courses.

The [MS Robotics Course Catalog](#) outlines all program requirements. Please review the requirements carefully. Students will need to take both core requirements for their concentration and one course for the other two concentrations. For example, Electrical Engineering students will need to complete both EECE 5552 and EECE 5554 as well as one Computer Science Core Course and one Mechanical Engineering Core Course.

The following are course recommendations for Spring 2023. If a recommended course is at capacity, please consider registering for another core requirement and/or a program elective.

**Computer Science:**
CS 5335 [CRN 38996]
And
ME 5250 [CRN 31660]
Or
EECE 5550 [CRN 39046]
Or
EECE 5554 [CRN 33213; 37056]

**Electrical Engineering:**
EECE 5550 [CRN 39046]
Or
EECE 5554 [CRN 33213; 37056]
And
CS 5335 [CRN 38996]
Or
ME 5250 [CRN 31660]

**Mechanical Engineering:**
ME 5250 [CRN 31660]
And
EECE 5550 [CRN 39046]
Or
EECE 5554 [CRN 33213; 37056]
Or
CS 5335 [CRN 38996]
Frequently Asked Questions

Do I need to attend both the Graduate School of Engineering General Orientation and Program/Department-Specific Orientation? What is the difference between these two orientations?

Please make sure to attend both. These are two entirely different orientations and will provide you with information you need in order to succeed. These sessions provide an opportunity not only to get your questions answered but also to meet with your academic and co-op advisors.

What if I was admitted as a Provisional or Conditional Student?

If page 2 of your Admission Letter states that you must fulfill additional requirements (such as “REQUIREMENTS: Student must take a course in Multivariate Calculus and a course in Linear Algebra before she/he is granted Regular Student status,”), then you must meet with your Faculty Advisor as soon as possible after orientation to determine your Plan of Study.

What if my course is full?

Enrollments are always shifting as students are allowed to change their registration. If a seat isn’t available in your preferred class right away, you can join the waitlist. To join a waitlist, enter the CRN (the 5 numbers in parentheses next to the course number) directly into your registration sheet and hit submit. You will then have an option to select “waitlist” from a drop down menu. The waitlist system will automatically inform you when a seat opens up. When a seat opens up, you need to log into your account and accept it within the 24-hour time limit.

Will I get a bill by registering for courses?

Your first e-bill is generated when you register for your courses. You will receive an e-bill from the university with instructions on how to pay it. If you have questions about billing or payment, then please contact the Student Financial Services Office at studentaccounts@northeastern.edu. Please do not contact faculty members or the registrar’s office regarding billing or payment.

What if I have questions regarding choosing courses or course registration?

You will have the opportunity to meet with faculty and staff during your department orientation. Please wait until you have attended the department orientation to get these questions answered.
If I have any questions, who do I reach out to?

There are departmental graduate coordinators who can support you through your programs who you can reach out to. These coordinators and their contacts are below:

- CS: Kim Gubelman k.gubelman@northeastern.edu
- ECE: Abby Hegarty a.hegarty@northeastern.edu
- ME: Noah Japhet n.japhet@northeastern.edu

We wish you all the best and look forward to working with you.

Sincerely,

Graduate School of Engineering
Northeastern University
360 Huntington Avenue
Boston, MA 02115
